

# FER DA SILVA

Corazón de Fer is an unforeseen wake up call from the dark. I was in there. I was stuck in the abyss of darkness and was feeling hopeless but I wanted to fight back and painting kept me alive.

Corazón de Fer is more than just Hearts. It is a reminder for everyone to love who you are, to give love, to love what you do and to embrace every part of your life. It symbolizes that the power of love enables us to achieve happiness and live our dreams.

Using a myriad form of materials from acrylics to resin, I develop these pieces of art representing what Love has done to me and what love can and will do for you. Each stroke of color represents a different meaning. Every splash of the paint I use at the end is a slow and fast heartbeat. Every single heart is unique, filled with scars and with different shapes. Each one shows the beauty of what is inside of us and what makes our hearts beautiful and unique. This is all part of the story that I was going through for a certain period of my life. Corazón de Fer is trying to honor what truly makes us beautiful...and that is the color and the beat of our hearts.

Corazón de Fer has given me innumerable blessings throughout these years and I want to keep sharing this power to everyone, because I think we all deserve to love and to be loved.

This is Corazón de Fer.  
The Power of Love.
